REASONS FOR ALLOWANCE

Claims 1-24 are allowed.

The following is an examiner's statement of reasons for allowance: Upon further review of the Hsu reference, The Examiner accepts Applicant's argument that is not related to a disk storage device. The prior art thus fails to teach or fairly suggest a method of sensing and controlling a temperature of a resistive element configured for use in a read/write head of a magnetic disk storage device comprising the combined detecting, comparing and altering steps as recited in independent claims 1, 4, 5, 8, 12, and 13, and specifically the step of altering a power applied to the resistive element based on the variation, the temperature of the resistive element varying as a function of the altered applied power. The prior art also fails to teach or fairly suggest a method of sensing and controlling a temperature of a resistive element configured for use in a read/write head of a magnetic disk storage device comprising the combination of the resistive element, comparison circuitry, and control compensation module as recited in independent claims 16 and 19.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Marc E. Norman whose telephone number is 571-272-4812. The examiner can normally be reached on Mon.-Fri., 8:30-5:00.
